Our Commitment

Become a Healthy Choice Advocate

Making healthy choices should be easy. By putting a Fresh Healthy Vending machine in your location, you empower consumers to make healthy choices that are convenient, too.

The United States is facing a junk food epidemic. 1 in 3 American adults is obese and childhood obesity has doubled in the past 20 years. We all rely on those quick, convenient snacks from the vending machine to get us through the day. We're always on the go and the temptation is too much to resist.

But, having a Fresh Healthy Vending machine at your location gives people the opportunity change the way they snack, one healthy choice at a time.

Get a Free Coffee or Healthy Snack Machine
